Sasan (Madhya Pradesh), March 24, 2014: Reliance Power announced that the third 660 MW unit of the 3,960 MW Sasan Ultra Mega Power Project (UMPP) has commenced power generation thus making 1,980 MW of capacity operational at the project. Balance three units are in advanced stages of construction and will be commissioned over the next few months.

The Sasan Ultra Mega Power Project is the largest integrated power plant and coal mining project in the world. Coal production has already commenced from the 20 million tonnes Moher and Moher-Amlohri coal mines associated with the power project.

With this unit, Reliance Power's generation capacity has increased to 3,865 MW which includes 3,780 MW of thermal capacity and 85 MW of renewable energy based capacity.

About Reliance Power:

Reliance Power Limited, a part of the Reliance Group, is India's leading private sector power generation company. The company has the largest portfolio of power projects in the private sector based on coal, gas, hydro and renewable energy, with an operating portfolio of 3,865 megawatts. The company also has the largest captive coal reserves in the private sector, estimated at two billion tonnes. Besides, the company is developing three coal mines in Indonesia and is also developing coal bed methane based generation capacity.
